WWF TRIVIA

- Do female wrestlers "undermine the dignity of womanhood"? That's the phrasing in a law prohibiting them from performing in Haverhill (MA). Claim there is it's the only US town to outlaw their shows, but I can't vouch for that.
- Wrestlers in ancient Greece sprinkled their bodies with sand before a bout.
- Q: You said the wrestlers in the original Olympic games fought with "no holds barred." Weren't there any restrictions at all?
A: A few. Some grabs were prohibited. They wrestled in the nude.
- Joseph Raymond "Toots" Mondt (1894-1976) was a former professional wrestler whose fame came as a ground-breaking promoter. He forever changed the business by initiating time limits, altering the style of wrestling (combining Greco-Roman and freestyle into what he called "Slam Bang Western Style Wrestling"), and - most revolutionary of all - introducing the concept of pre-determined outcomes.
